

The Trifecta Platform

Integrated Freight Intelligence & Logistics Execution Ecosystem

Platform Overview

The Trifecta Platform integrates freight intelligence, logistics infrastructure, and last-mile delivery into a unified logistics ecosystem connecting client supply chains with final customer delivery through an AI-infused optimization layer.

Corporate Management Group (CMG)

- Freight spend analysis and reporting
- Carrier contract optimization
- Routing efficiency analytics
- Supply chain strategy consulting

American Diamond Logistics (ADL)

- Full truckload transportation
- Less-than-truckload shipping
- Intermodal logistics coordination
- Warehousing and distribution operations

Last Mile Solutions (LMS)

- High-performance parcel delivery
- Scheduled delivery windows
- Real-time delivery visibility
- Reliable final-mile routing

Integrated Platform Capabilities

- Strategic freight analytics and optimization
- Scalable transportation infrastructure
- Coordinated distribution and fulfillment
- High-performance last-mile delivery
- End-to-end supply chain visibility

Expected Client Outcomes

- Reduced freight costs
- Simplified logistics management
- Scalable distribution capabilities
- Improved delivery reliability
